EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The following is changes to the drawings: in Figure 3, changing the number "353" in the box label "LASER TOOL CONTROLLER" to --352-- in order to display the same number that is presented for the laser tool controller in the specification. In order to avoid abandonment of the application, applicant must make the above drawing changes.

2. The following is an examiner's statement of reasons for allowance: regarding claim 1, the primary reason for the allowance of the claim is due to the fact of the specific limitation of an apparatus structure comprising a laser tool for forming an electrical connection between an integrated circuit structure and a semiconductor substrate in combination with a controller coupled to a probe tool and the laser tool in order to establish the electrical connection between the integrated circuit structure and the semiconductor substrate wherein the controller is in combination with a source for providing an electrical charge to the integrated circuit structure.

Since claims 2-13 depend off of claim 1, they are also allowed.

Regarding claim 14, the primary reason for the allowance of the claim is due to the fact of the specific limitation of an apparatus structure comprising a laser tool for forming an electrical connection between an integrated circuit structure and a semiconductor substrate in combination with a controller coupled to a probe tool, laser tool and a scanning electron

microscope in order to establish an electrical connection between the integrated circuit structure and the semiconductor substrate wherein the scanning electron microscope is for providing an electrical charge to the integrated circuit structure. Since claims 15-17 depend off of claim 14, they are also allowed.

Regarding claim 18, the primary reason for the allowance of the claim is due to the fact of the specific limitation of a method comprising forming an electrical connection between an integrated circuit structure and a substrate using a laser tool in combination of determining a location of a fault in the integrated circuit structure using a scanning electron microscope. Since claims 19-30 depend off of claim 18, they are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jermele M. Hollington whose telephone number is (571) 272-1960. The examiner can normally be reached on M-F (9:00-4:30 EST) First Friday Off.
